

# METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. IX.

November, 1933—April, 1934.

KENNEDY PRESS LIMITED

— 21, Albion Street —

GAYTHORN, MANCHESTER 1

# INDEX

	Page		Page		Page
<b>A</b>					
Aluminium Alloy, Hydronalium, New .....	31	Casting Motor-car Crankshafts.....	190	Electrolytic Theory of Corrosion, The .....	20
Aluminium Melting Losses .....	42	Cast Steel at High Temperatures, The Tensile Strength and Contraction of .....	3	Empire Zinc Industry .....	41
Annealing Steel Sheets in Electric Furnaces .....	133-135	Cast Iron Research, Development of. (Major F. A. Freeth) .....	5-6	Effect of Low Temperatures on Tensile Properties of Metals, The ..	84
Aluminium Paint.....	136	Cast Iron, Some Investigations and Observations Principally on the Strength Properties of. By J. E. Hurst .....	17-18; 43-45	Eminent Metallurgist, An .....	173
A.S.T.M. Proceedings, 1933 .....	148	Coke Oven Gas Firing .....	59-60	Effect of Temperature, Research Committee on.....	182
Automatic Reversal of Open-hearth Furnaces .....	153-154	Corrosion, The Electrolytic Theory of .....	20	Electric Furnaces, Annealing Steel Sheets in .....	133-135
An Eminent Metallurgist.....	173	Combustion Chamber Walls, Air-cooled .....	174	<b>F</b>	
Air-cooled Combustion Chamber Walls .....	174	Chromium-nickel Stainless Steel, Reducing Interangular Corrosion in .....	174	Ferrous and Non-ferrous Tube Works, Impressions of a Consultant Engineer on Tours of Continental .....	70-72
Alloy Steels in Industry. By Prof. Sir H. Carpenter, D.Sc., F.R.S. ....	175-178	Cadmium Electro-plating Solutions, Analytical Control of. By E. E. Halls .....	183-184	Foundry Sense, The Pattern-maker's .....	80
Analytical Control of Cadmium Electro-plating Solutions. By E. E. Halls.....	183-184	Copper and its Alloys, Progress in the Industrial Application of. By J. W. Donaldson, D.Sc. ....	111-113	Foundry School, A Projected British. By J. G. Pearce, M.Sc., F.Inst.P., M.I.E.E.....	155-156
Aluminium, Developing Applications for .....	26	Copper Alloys, A New Series of....	113	Future Trend in Forged and Cast Light Alloys, The. By W. C. Devereux .....	101-102
Arc Welding Design and Practice Procedure, Handbook of .....	180	Case-hardening, A New High-speed Method of .....	128	Finishes Used in Modern Architecture, Metal. By S. Wernick, M.Sc., Ph.D.....	191-192
Alloys, The Future Trend in Forged and Cast Light. By W. C. Devereux .....	101-102	Chromium and of Vanadium in Steel, Direct Determination of..	130	Furnace Electrodes .....	179-180
Aluminium and its Alloys, Developments and Applications of....	102-104	Cylinder Liners, Wear Results on	76	Furnace-construction, Heat-resisting. (Mr. G. Stanbery) .....	—
Aluminium, Coloured .....	128	Cast Iron, Oxygen in. By W. F. Chubb, B.Sc. ....	53-54	Fusion Welds, Stresses in ....	129-130
<b>B</b>					
Budget and Industry, The .....	172	Coreless Induction Furnaces, Slag-resisting Crucible for the.....	54	<b>G</b>	
Bilateral Agreements Improve International Trade .....	138	Contraction of Cast Steel at High Temperatures, Tensile Strength and .....	3	Glass Silk for Heat Insulation.....	162
Blast-furnace Gas Cleaning .....	140	Chromium-Nickel-Iron Alloys for Furnace Construction, Heat-resisting. L. J. Stanbery .....	6	Gas Cleaning, Blast-furnace.....	140
British Iron and Steel Industry....	106	Castings, High-chromium Iron Alloys for .....	87-88	Gold Refining, Present-day.....	157
Britain's Vast Shop Window .....	107	Canadian Institute of Mining and Metallurgy. Annual Meeting at Quebec .....	195	<b>H</b>	
Balance Heat in Iron and Steel Works. By W. J. Brooke .....	109-110	<b>D</b>			
British Industries Fair, The....	121-127	Development of Materials for Poppet Valves, The. By C. C. Hodgson 115-116; 141-143		High-chromium Iron Alloys for Castings .....	87-88
Bearing Metals .....	76	Developments and Applications of Aluminium and its Alloys....	102-104	High-frequency Furnace Installation, A New .....	—
British Machinery for Russia .....	89-90	Direct Determination of Chromium and of Vanadium in Steel.....	130	Hydro-electric Power Stations in Soviet Far East.....	37
British Shipping and Shipbuilding	40	Deoxidation of Steel.....	67-69	Heat-resisting Chromium-Nickel-Iron Alloys for Furnace Construction .....	6
Blast-furnace Gas Cleaning Installation at the Tata Works .....	62	Developments in Soviet Russia ..	91-92	Hydronalium—A new Aluminium Alloy .....	31
British Cast Iron Research Association .....	9	Direct Reduction of Vanadium-Bearing Iron Ores in the Manufacture of High-grade Steels .....	1-3	Heat Insulation, Glass Silk for.....	162
Brighter Prospects .....	9	Development of Cast Iron Research	5-6	Hardening Operations, Controlling .....	189-190
British Shipping, Trade Barriers and Blast-furnaces; Refractory Materials for. By Alfred B. Searle .....	85-86	Disarmament Crisis, The .....	8	<b>I</b>	
British Foundry School, A Projected. By J. G. Pearce, M.Sc., F.Inst.P., M.I.E.E.....	155-156	Developing Applications for Aluminium .....	26	Improving the Quality of Tool Steel by Magnetic Treatment By Edward G. Herbert, B.Sc., M.L.Mech.E. ....	11-15
Blast-furnace Completed at Kuznetsk, Third .....	130	Die-steel Costs, Reducing Nitrided. By Glyn Powis .....	38	Impressions of a Consultant Engineer on Tours of Continental Ferrous and Non-ferrous Tube Works. By Gilbert Evans ..	70-72
<b>C</b>					
Changing Rolls in Mills .....	16	Drop Versus Film Formation in the Condensation of Steam on Condenser Tubes .....	48	Institute of Metals, The. Annual General Meeting.....	107
Chromium-Nickel, Iron Alloys for	6	<b>E</b>			
Copper Alloys, New Series .....	113	Electrolytic Extraction of Slag from Iron and Carbon Steel. A Method for the .....	31	The Constitution of the Magnesium-rich Alloys of Magnesium and Nickel. Messrs. John L. Haughton and J. M. Payne .....	152
Copper and its Alloys, Progress in the Industrial Application of. By J. W. Donaldson, D.Sc....	111-113	Electrodes, Furnace .....	179-180	Iron and Steel Reorganisation Scheme .....	173
Cast Iron, Symposium on .....	120	Economy Suggestions, Industrial. By Glyn Powis .....	181-182	Iron and Steel Works, Sodium Carbonate in. By N. L. Evans, B.Sc., A.I.C. ....	158
Coloured Aluminium .....	128				
Case-hardening, A New High-speed Method of .....	128				
Corrosion by Sea and Ozone .....	143				
Crushing of Limestone .....	147-148				
Cadmium Electro-plating Solutions, Analytical Control of .....	183-184				
Controlling Hardening Operations .....	189-190				

	Page		Page		Page
Iron and Steel Works, Balanced Heat in. By W. J. Brooke	109-110	<b>M</b>		<b>R</b>	
Intergranular Corrosion in Chromium-Nickel Stainless Steels, Reducing	174	Magnetic Treatment of Metals	9	Recent Metallurgical Developments and their Significance for Shipbuilding and Marine Engineering. By Prof. F. C. Lea, O.B.E., D.Sc.	21-25
Investigations and Observations Principally on the Strength Properties of Cast Iron, Some. By J. E. Hurst	17-18; 43-45	Micro-optical Investigation of Iron and Steel by Polarised Light. By Dr. N. Ahmad, B.Sc., D.Sc., in collaboration with Prof. D. M. Frh. v. Schwarz (Munich)	33-37	Ring-type Balance Recorder, A	30
Iron and Steel Pickling. By William Ashcroft	19-20	Making Super-quality Steels	167-170	Rustproofing Processes with Reference to the Use of Town's Gas, Review of. By O. W. Roskill	185-188
Institute of Metals	31	Metal Finishes Used in Modern Architecture. By S. Wernick, M.Sc., Ph.D.	191-192	Russia, British Machinery for	89-90
New Method of Issuing Publications. G. Shaw Scott, M.Sc., F.C.I.S.		Manufacture of High-grade Steels by Direct Reduction of Vanadium-bearing Iron Ores	1-3	Reversal of Open-hearth Furnaces, Automatic	153-154
Iron and Steel by Polarised Light, The Micro-optical Investigation of. By N. Ahmad, B.Sc., D.Sc. Tech., in collaboration with Prof. D. M. Frh. v. Schwarz (Munich)	33-37, 77-80	Metals, The Magnetic Treatment of Magnetic Treatment, Improving the Quality of Tool Steel by. By Edward G. Herbert, B.Sc., M.I. Mech.E.	11-15	Reducing Intergranular Corrosion in Chromium-nickel Stainless Steels	174
Industrial Economy Suggestions. By Glyn Powis	181-182	Mills, Changing Rolls in	16	Research Committee on Effect of Temperature	182
Institute of Metals, Annual General Meeting held in London	149	Modern Architecture, Metal Finishes Used in. By S. Wernick, M.Sc., Ph.D.	191-192	Repairs to Steel Furnaces. By Walter Lister	145-147
Minimum Dimensions of Test Samples for Brinell and Diamond Pyramid Hardness Tests. Dr. G. A. Hawkins, and Mr. C. W. Aldous	149	Mining and Metallurgy, Canadian Institute of	195	Reduction of Vanadium-bearing Iron Ores in the Manufacture of High-grade Steels	1-3
Influence of Gases in an 8% Copper-Aluminium Alloy on Normal and Inverse Segregation. Dr. I. G. Slater	150	Marine Engineering Service, Steels in. By T. H. Burnham, B.Sc.	81-83	Rolls in Mills, Changing	16
The Diffusion of Zinc and Iron at Temperatures Below the Melting Point of Zinc. Mr. Gilbert Rigg	150	Magnesium, Light Alloys for Aeronautical Purposes with Special Reference to. By L. Aitchison, D. Met., B.Sc., F.I.C.	49-52	Recent Progress in Non-ferrous Seamless Tube Manufacture. By Gilbert Evans	117-120
A Study of the Influence of the Inter-crystalline Boundary on Fatigue Characteristics. Dr. H. J. Gough, Messrs. H. L. Cox, and D. G. Sopwith	150	Metallurgist, An Eminent	173	Research and Industry	75
The Viscous Properties of Extruded Eutectic Alloys of Lead-tin and Bismuth-tin. Mr. C. E. Pearson	151	Metallurgical Developments and Their Significance for Shipbuilding and Marine Engineering, Recent. By Prof. F. C. Lea, O.B.E., D.Sc.	21-24	Refractory Materials for Blast Furnaces. By Alfred B. Searle	85-86
Viscous and Plastic Flow in Soft Metals. Dr. Ing. E. W. Fell	151	Materials for Poppet Valves, The Development. By C. C. Hodgson	115-116; 141-143	Reducing Nitrided Die-steel Costs. By Glyn Powis	38
Castability of Ternary Alloys. Professor A. Portevin and Dr. P. Bastien	151	<b>N</b>		<b>S</b>	
Alloys of Silver and Beryllium. Mr. H. A. Sloman	151	New Series of Copper Alloys, A	113	Slag-resisting Crucibles for the Coreless Induction Furnaces	54
Transverse Tests of Sand-cast Aluminium Alloy Bars. Messrs. C. E. Phillips and J. D. Grogan	152	New High-speed Method of Case-hardening, A	128	Steels in Marine Engineering Service. By T. H. Burnham, B.Sc.	81-83
The Constitution of Copper-Silicon Alloys. Professor D. Hanson, and Dr. E. G. West	152	New Aluminium Alloy, A—Hydro-nalium	31	Scientific Research and the Non-Ferrous Metal Industries	108
Transformations in the Copper-Palladium Alloys. Mr. R. Taylor	152	Non-Ferrous Metal Industries, Scientific Research and the	108	Symposium on Cast Iron	120
The Malleability of Nickel and of Monel Metal. Mr. Owen W. Ellis	152	Non-ferrous Seamless Tube Manufacture, Recent Progress in. By Gilbert Evans	117-120	Stresses in Fusion Welds	129-130
<b>K</b>		Nitrided Die-steel Costs, Reducing. By Glyn Powis	38	Straits Tin	154
Kuznetsk Iron and Steel Works	135-136	<b>O</b>		Sodium Carbonate in Iron and Steel Works	158
<b>L</b>		Oxygen in Cast Iron. By W. F. Chubb, B.Sc.	53-54	Shipbuilding and Marine Engineering, Recent Metallurgical Developments and their Significance for. By Prof. F. C. Lea, O.B.E., D.Sc.	21-25
Light Alloys for Aeronautical Purposes with Special Reference to Magnesium. By L. Aitchison, D. Met., B.Sc., F.I.C.	49-52	Open-hearth Furnaces, Automatic Reversal of	153-154	Steels, Making Super-quality	167-170
Light-weight High-speed Passenger Train	56	<b>P</b>		Steel Furnaces, Repairs to. By Walter Lister	145-147
Large Pump Casting, A	62	Procedure Handbook of Arc-Welding, Design and Practice	180	Steel Pipe Lines, Protection of	161
Leyland Hydraulic Torque Converter	29-30	Protection of Steel Pipe Lines	161	Steel, Deoxidation of	67-69
Limestone, The Crushing of	147-148	Progress in the Industrial Application of Copper and its Alloys. By J. W. Donaldson, D.Sc.	111-113	Steels, Direct Reduction of Vanadium-bearing Iron Ores in the Manufacture of High-grade	1-3
Liner Wear, Piston Rings and Their Relation to	46-48	Patternmaker's Foundry Sense, The	80	Steel at High Temperatures, Tensile Strength and Contraction of Cast	3
Low Temperatures on Tensile Properties of Metals, The Effect of	84	Piston Rings and Their Relation to Liner Wear	46-48	Strength Properties of Cast Iron, Some Investigations and Observations Principally on the. By J. E. Hurst	17-18; 43-45
Light Alloys, The Future Trend in Forged and Cast. By W. C. Devereux	101-102	Pickling Iron and Steel. By William Ashcroft	19-20	Slag From Iron and Carbon Steel, A Method for the Electrolytic Extraction of	31
		Pressure Vessels, Welding for. By R. S. Sulzet	4	Soviet Russia, Developments in	91-92
		Poppet Valves, The Development of Materials for. By C. C. Hodgson	115-116; 141-143	Structural Steel in the Soviet Union	58
		Passenger Trains, Light-weight High-speed	56	Steel Sheets in Electric Furnaces, Annealing	133
		Power Stations in Soviet Far East, Hydro-electric	37	Seamless Tube Manufacture, Recent Progress in Non-ferrous. By Gilbert Evans	117-120
		Present-day Gold Refining	157	Super-quality Steels, Making	167-170
				<b>T</b>	
				Trade Barriers and British Shipping	139
				Tensile Strength and Contraction of Cast Steel at High Temperatures	3
				Temperature, Research Committee on Effect of	182
				Trinidad, Water Supply in	194

	Page
Tube Manufacture, Recent Progress in Non-ferrous Seamless. By Gilbert Evans.....	117-120
Tours of Continental Ferrous and Non-ferrous Tube Works, Impressions of a Consultant Engineer on. By Gilbert Evans.....	70-72
Tensile Properties of Metals, The Effect of Low Temperatures on..	84
Town's Gas, Review of Rustproofing Processes with Reference to the Use of. By O. W. Roskill.....	185-188
Treatment of Metals, Magnetic.....	9
Tool Steel by Magnetic Treatment, Improving the Quality of. By Edward G. Herbert, B.Sc., M.I. Mech.E.....	11-15
Tensile Properties of Metals, The Effect of Low Temperatures on..	84
Tin, Straits .....	155
Third Blast-furnace Completed at Kusnetsk .....	130
Thallium .....	130

## V

Vanadium bearing Iron ores in the Manufacture of High-grade Steels, Direct Reduction of .....	1-3
---	-----

## W

Welding for Pressure Vessels.....	4
Wear Results on Cylinder Liners ..	76
Water Supply in Trinidad .....	194

## Z

Zinc Production, Empire.....	41
------------------------------	----

## SOME RECENT INVENTIONS.

Continuous Heat-treatment Strip Furnaces .....	93
Rolling-mill Housings .....	93
Drilling-machine Improvements ..	94
Rolling Mandrel Carriages .....	94
Heat-treatment Furnaces.....	55
Reduction of Zinc Ores .....	55
Cold-working Non-magnetic Steel Rings .....	164
Annealing Steels and Alloys.....	164
Unique Bridge over the Tees.....	164
Separating Sheets after Pack Rolling .....	197
Casting Liners in Bearings .....	197
Wire-drawing Dies .....	198
Improving the Quality of Steel Ingots.....	198

## BUSINESS NOTES AND NEWS.

New Dock at Belfast Harbour.....	27
Stainless and Heat-resisting Steels ..	27
South Wales Steel Merger Contemplated .....	27
New Passenger Engines .....	27
Progress in Soviet Industry .....	27
Seunthorpe Blast-furnace Restarted ..	27
Old Sheffield Tools and Machinery, The Preservation of .....	27
Open-hearth Furnace Foundry, New Soviet .....	27
Merger Scheme, North-east Coast..	28
Charcoal Industry in India, Reviving the .....	28
Brazilian War Vessels, Tenders for ..	28
